Since 1899 the German Shepherd Dog has been bred through selection to what it is today, the number one versatile dog worldwide. This popularity has been achieved through this dog's unique capabilities and societies need for all kinds of canine usage. All over the world German Shepherd Dog Breeders work through selective breeding programs to accomplish the objective of the standard set by the founders in Germany. Most German Shepherd Dog Clubs have adopted this standard and the breeding rules from the German Shepherd Dog Club of Germany (SV), the parent club of the breed.

Since its formation, the United Schutzhund Clubs of America (USA) has adopted all these rules and calls itself the guardian of the true German Shepherd Dog in the United States of America. USA is a member of the World Union for German Shepherd Dogs (WUSV) and its members represent the United States every year in the World Championship for German Shepherd Dogs in different countries all over the world. The United Schutzhund Clubs of America is structured throughout Regions and Local Clubs within the United States and offers Working Dog Trials, Conformation Shows and Breed Surveys for its membership. The United Schutzhund Clubs of America is strongly devoted to fulfilling the goal of the founders of the breed:

"German Shepherd Dog breeding is working dog breeding and shall always be working dog breeding otherwise it is not a German Shepherd Dog breeding."

Upon entry into the USA Breed Registry, the dog's ancestry is confirmed. The Breed Book is the basis for controlling the breeding of German Shepherd Dogs. In order to provide the complete inborn genetic characteristics on all the descendants within the breed, the Breed Book shall list all animals eligible for entry in compliance with the Breeding Rules even if it should later emerge that some of these animals may for certain reasons not be suitable for breeding. Since it is essential for obtaining comprehensive data within the breed on the desirable or inferior heredity in the dog, all eligible dogs must also be registered. USA certificates of pure breeding for excellence with phenological and genealogical profile are certificates of authenticity and are only of value as an addition to the AKC registration. The pedigree remains the property of USA.

Every friend of the German Shepherd Dog should join a local USA Club to breed, care for and train his/her dog to its highest level of achievement.

Updating Registration or Transfer of Ownership: Fee \$5.00

To update titles, breed surveys, hip evaluations, conformation or SchH titles, etc. Send this original USA Registration Certificate along with proof of new titles (copy of scorebook, breed survey, show rating) and fee to the USA Office.

To transfer ownership send this completed original USA Registration Certificate and the fee to the USA Office.

A. This section must be completed and signed by the former owner(s) named on this certificate.

William B. Fleischer Jr.

Date of transfer: ____/____/____

Name of new owner: _____ Co-owner: _____

I (we) certify that ownership of this dog was transferred to the above new owner(s).

Name: _____ Name: _____
Former Owner Signature Former Co-Owner Signature

B. This section must be completed and signed by the new owner(s) named above on this certificate.

Name of new owner: _____ Co-owner: _____

Address: _____

City: _____ State _____ Zip _____

Phone: (____) _____ EMail _____

I/we apply to USA to have a Registration Certificate for this dog issued in my/our name(s).

Name: _____ Name: _____
New Owner Signature New Co-Owner Signature

Any corrections or alterations to this USA Registration Certificate require a written explanation
